100% Biodegradable • Plant Based Technology
Contains No Tannic Acid • No Benzyl Benzoate **32 FL.OZ.**

Neutralizes Allergens in Dust Mite Feces, Cockroach Droppings, Dog & Cat Dander

The Ecology Works® Anti-Allergen Solution contains powerful non-toxic, natural plant and mineral derived ingredients, that denature protein allergens on contact. May be applied directly to most water washable carpets, upholstery, bedding, linens and curtains. Test in an inconspicuous or hidden area before overall application. Do not use on "Dry Clean Only" rugs or fabrics. This product is not a pesticide but can be used in conjunction with The Ecology Works® DUSTMITTE & FLEA CONTROL and good home hygiene for even more effective relief.

Directions for Use as Spray: Clean by vacuum, laundering or steam cleaning before spraying. Spray to dampen and penetrate surface including the undersides of upholstery, furniture, box spring etc. and allow to completely dry. Do not saturate carpet or fabric. Applied as a spray, this 32 oz. bottle will treat approximately 500 sq. ft.

Directions for Use in Hot Water Vacuum Cleaning Machine: Add 4 oz. of Anti-Allergen Solution to each gallon of warm water mixed with carpet shampoo (or warm water mixed with The Ecology Works® DUSTMITTE & FLEA CONTROL). Applied in hot-water vac 32 oz. this bottle treats 800 sq. ft.

Directions for Use in Washing Machine: Add 1/2 cup to wash cycle for extended allergen reduction in regular machine washing.

Directions for Use on Dogs & Cats: Dampen a clean cloth then wipe pet's coat. Avoid face & eye area. Allow to air dry. More frequent light applications work better than one heavy treatment.

Contents: Deionized water, non-ionic surfactant, and anti-allergen additive.

Caution: Keep out of the reach of children.
