

2230N  
Instruction Sheet

**Havahart**

**Do Not Use This Product on Edible Crops:** See specific directions for application to fruit and citrus trees.

**Store at Room Temperature:** Protect from heat and freezing. If frozen, allow to thaw to room temperature and mix thoroughly before use.

**MIXING AND DILUTION DIRECTIONS:**  
**Note:** Individual containers are not filled to capacity but are filled by weight.

**Mix Before Using:** Concentrate 2103 must be mixed with Formula 2104 and water to produce ready-to-use spray. Read all directions before mixing.

**Use Promptly After Mixing:** Mixed solution will spoil quickly above 40°F. Do not store longer than one day. Carefully determine the quantity required for immediate application.

**To Make 20 Gallons of Ready-to-Use Spray:**  
 1. Before diluting, thoroughly stir contents of both containers individually. If Concentrate 2103 has caked due to unavoidable settling which occurs during shipment, break cake with stiff knife or screwdriver.  
 2. Empty entire pail of Formula 2104 into a suitable mixing container. Add 15 gallons of warm water and mix thoroughly.  
 3. Add all of Concentrate 2103. Stir until well mixed.  
 4. Pour formulation into sprayer and use promptly. If sprayer is to be re-used, clean it with cold water immediately after use.

- For repelling black-tailed deer (mule deer), white-tailed deer and Roosevelt elk that browse or uproot conifer seedlings.
- Also repels white-tailed deer from listed ornamentals, fruit, citrus and almond trees.
- Repels rabbits from ornamentals.
- Treats 1200-1440 ornamental shrubs 4 feet high.

**ACTIVE INGREDIENT:**  
 Purseport Whole Egg Solids..... 37.00%  
**OTHER INGREDIENTS.....** 63.00%  
**TOTAL.....** 100.00%

**KEEP OUT OF REACH OF CHILDREN  
 CAUTION**  
 (See other panel for additional precautionary statements.)

**Concentrate: This kit makes 20 Gallons**  
 (After mixing Concentrate 2103 and Formula 2104 with water)  
**Net Concentrate: 2.5 gallons of Concentrate 2103**  
 2.5 gallons of Formula 2104

EPA Reg. No. 50932-6  
 EPA Est. No. 63416-MN-001

**DIRECTIONS FOR USE**  
 It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**USE RESTRICTIONS:**  
 This product may be used to repel black-tailed deer (mule deer), white-tailed deer, and Roosevelt elk that browse or uproot conifer seedlings. This product may also be used to repel white-tailed deer from yew, Scotch pine, arbovitae, Douglas fir, flowering crabapple, hennock, honeysuckle, azalea, rhododendron, fruit and citrus trees, and ornamental shrubs and to repel rabbits from ornamentals.

**Weather Conditions:** Apply only to dry plants, and only under conditions favoring prompt drying of spray (lightly breezy, mild dry weather with low relative humidity). If spray is used on wet plants or in damp, cold, foggy or misty weather, or if precipitation or freezing occurs before spray can dry, protection may be partially or completely lost.

**Care of Equipment:** Promptly discard leftover spray according to label directions. Rinse spraying equipment thoroughly with cold water immediately after use.

**Established Plantations:** For use on individual seedlings, use a pressurized hand-held or backpacked garden sprayer. Hold nozzle of spray wand about 10" vertically above tip of terminal shoot. On conifers, spray the terminal and first whorl to touch. Final DEER AWAY® mixture should be applied at the rate of one (1) gallon per 400 seedlings 2-4 ft. tall. Treat each seedling to be protected.

**Nurseries or Large Greenhouses:** Use pressurized tank and spray boom and assure complete coverage of seedlings to run-off by proper adjustment of tank pressure, nozzle size, number and opening, and boom height above bed and speed of travel. This will result in about 2 ml of solution per seedling. Seedlings in nurseries and greenhouses must be sprayed as close to lifting and out-planting as possible for maximum browse protection. Re-spray before lifting if more than 6 weeks have elapsed between first application and lifting of stock.

**Yew, Scotch Pine, Arbovitae, Douglas Fir, Flowering Crabapple, Hemlock, Honeysuckle, Azalea, and Rhododendron:** Apply to terminal to point of run-off for large trees; apply DEER AWAY® only to lateral branches that are within animal's reach. Repeat as necessary.

**Ornamental Shrubs:** Use of DEER AWAY® during bud break or flower bloom can cause foliage injury and petal drop.

**Fruit and Citrus Trees:** For use on bearing and non-bearing trees. Use only when trees are dormant, not when actively growing.

**Conifer Seedlings:** Seedlings to be protected from winter browsing and seedlings in nurseries and greenhouses must be dormant and frost hardy before treatment. **Note:** Browning and drop of old needles may occur on some evergreen species after using this product.

**Almond Trees:** Apply by ground application equipment at the rate of 1 to 6 gallons per acre, depending on tree size. Apply as needed to achieve continued repellency. Do not apply DEER AWAY® within 30 days of harvest.

**PRECAUTIONARY STATEMENTS**  
 Hazards to Humans and Domestic Animals

**CAUTION:** Causes eye and skin irritation. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

**FIRST AID**

**If on skin or clothing:**

- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

**If in eyes:**

- Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.
- Have the product container or label with you when calling a poison control center or doctor, or going for treatment. Contact 1-800-858-7378 for emergency medical treatment advice.

**ENVIRONMENTAL HAZARDS**

Keep out of lakes, streams or ponds. Do not apply directly to water, or to areas where surface water is present, or to incidental areas below the mean high water mark. Do not concentrate water by cleaning of equipment or waste disposal.

**STORAGE & DISPOSAL**

Do not contaminate water, food or feed by storage and disposal.

**Pesticide Storage:** Store only in a cool, dry area inaccessible to children and pets. Protect from freezing and heat. Keep container tightly closed to prevent evaporation.

**Pesticide Disposal:** Wastes resulting from use of this product may be disposed of on site or at an approved waste disposal facility.

**Container Disposal:** Triple rinse (or equivalent). Then dispose of in a sanitary landfill, or incinerate, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.

Woodstream Corporation and its subsidiaries will not accept liability for damage or injury resulting from use not in accordance with label instructions. For information on this pesticide product (including health concerns, medical emergencies, or pesticide incidents) contact the National Pesticide Information Center at 1-800-858-7378.

**DEER AWAY®**  
**Big Game Repellent**  
**Liquid Spray Kit**  
**This kit makes 20 Gallons.**
