HANDLING and USE PRECAUTIONS:

Skin: Not a primary skin irritant. Remove contaminated clothing and wash area with soap and water. Launder clothing before wearing again.

Eyes: May cause mild irritation. Flush eyes with water for 15 minutes. Get medical attention if warranted.

Ingestion: Low acute oral toxicity. Not intended for human or animal consumption. If ingested, do not induce vomiting. Drink water. Get medical attention if warranted.

Use: Product only intended for use on driveway and walkway surfaces including concrete, brick and asphalt. Test product before applying to all surfaces. **IceClear®** will not prevent damage to concrete cause by freeze-thaw cycles.

Caution: Not intended for human or animal consumption.

IceClear® is formulated from environmentally friendly materials and based on technology originally developed for airport deicing applications. The research behind this advanced technology received R&D Magazine's prestigious R&D 100 award as one of the top 100 new technologies in 2001. **IceClear®** is a special blend of renewable resources derived from agricultural products. Unlike other products, **IceClear®** contains no toxic materials or corrosive salts (chlorides), making it the ideal deicer for safe and effective homeowner use.

Directions for Use

IceClear® can be applied directly from the bottle using the trigger sprayer provided or apply using any pressurized sprayer (consult sprayer instructions for safe and effective operation).

To achieve maximum results, spray **IceClear®** on driveways, steps, and walks in a uniform pattern.

How should I use IceClear®?

For best results, apply **IceClear®** as a pre-treatment prior to snow or ice storm. Pre-treatment 1-2 hours before a storm will prevent ice formation and bonding to driveways and walkways, making snow removal quick and easy. **IceClear®** stops ice before it starts!

IceClear® is an excellent deicer, which can be applied directly to snow and ice. **IceClear®** will penetrate to the driveway or walkway surface, breaking the bond of snow and ice.

How much IceClear® should I use?

The amount of **IceClear®** needed varies with outside temperature and thickness of snow and ice, but a 1 gallon bottle can pre-treat a two-car driveway (plus walkways) multiple times. Apply as needed for deicing applications.

NOTICE TO BUYER: Seller makes no warranty, express or implied concerning the use of this product, other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.
