Directions

Use tear notches to open bag and expose zip lock. Add 1 level table-spoon of powder to 1 quart water. Shake well (contents will settle after mixing) and sprinkle on plants. Works on anything those pesky deer like to chomp on. Re-apply every 10 days to 2 weeks and after rain or heavy watering. Apply on new shoots as plants grow. Effective on flowers, bushes and vegetable gardens. Pet safe. Makes five gallons.

Arlene's Helpful Hints!

- Add 1 tsp. of vegetable oil or detergent per quart of liquid to help NOT TONIGHT DEER to stick to foliage.
- Apply with watering can or sprayer. If using hose attached sprayer, make sure it has a siphon tube. Cheap spray bottles may clog. I prefer to take a nail and punch a few holes in the top of a liter soft drink bottle and use it to sprinkle Not Tonight Deer on my plants.
- Shake mixture well before sprinkling.
- Deer are creatures of habit. Regular use discourages deer from stopping for a snack.

CAUTION: Will cause skin and eye irritation. Not for human consumption. Avoid breathing spray mist. Avoid contact with skin, eyes, or clothing.

FIRST AID: IF ON SKIN - Remove contaminated clothing and wash affected area lightly with soap & water. Do not rub. Launder clothing before reusing. IF IN EYES-Flush with plenty of water. Call a physician.
