IMAGINE!

Walking into your growroom and seeing the crop you have always dreamed of. And you did it with a lot less effort, never once having to touch one single drop of pH up or down or fool around with any pH monitoring equipment.

And that's why you should pay close attention to the pH Perfect® base nutrients and the pH Perfect Bigger Yields Bundle® boxes that together make up the Bigger Yields Flowering System® from Advanced Nutrients.

pH Perfect

Here's what makes pH Perfect so special:

◆ **NEVER WORRY ABOUT YOUR pH!** The formulations contain a proprietary “smart” release of ions called pH Perfect Technology, which automatically corrects and balances your pH in your reservoir at optimal levels and keeps your pH locked down in your plants’ growing and flowering sweet spot.

Never again fool with pH pens or meters or have to balance your pH ever again! The cations and anions are perfectly balanced and tuned for the types of plants you grow!

◆ **ALL-IN-ONE SOLUTION!** Start with a pH Perfect base nutrient, which can be used as a *standalone* base nutrient, or with any pH Perfect supplement. And if you want, take your plants to the next level by grabbing a Hobbyist Level™ bundle box. It comes with all the supplements you need whether growing in hydroponics or growing media. Even better, the pH Perfect base nutrients are now 5-in-1 products, and some of the supplements are 2-in-1 products, saving you mixing time and money.

And it doesn't stop there. When you buy a bundle box you'll also get one of your supplements free—on top of the special low bundle box pricing!—while at the same time giving your plants the exact macro-, secondary- and micronutrients at the precise time in your plants’ grow or bloom cycles that they need for superior plant growth.

◆ **BUNDLES TO MATCH YOUR SKILL LEVEL!** No matter how much experience you have, there's a bundle made for you. You're totally in control over what kind of crop you want. Start at the Hobbyist Level™ and then decide if you want to move up to the next level by adding the Expert Grower Level™, the Professional Grower Level™, or the Grand Master Grower Level™ bundle boxes.

◆ **NO GUESSWORK!** The simple feeding chart provided with each of the bundles has been perfected to give your crops optimal nutrient levels and ratios for maximized yields every time. It makes it incredibly simple to mix: All the pH Perfect base nutrients are mixed at 4 mL per liter and all the supplements are a scant 2 mL per liter.

◆ **AS SIMPLE AS IT GETS!** Just select your base nutrients and your skill level bundle, follow the simple mixing instructions and feeding chart, let pH Perfect Technology auto-correct your pH, and get ready for a harvest you can be proud of!

➔ Try any of the base nutrients and bundles 100% risk-free — Advanced Nutrients backs each bundle with a money-back guarantee of satisfaction. Simply visit your local hydroponics store and tell them you want to start using the Bigger Yields Flowering System right away.

Pick your base nutrient and start with the Hobbyist Level™.

Then decide if the next level in the Bundle Box Accession Ladder is the right choice for you. Choose from the Expert Grower Level™, the Professional Grower Level™ or the Grand Master Grower Level™.
