

Material Safety Data Sheet

O d o u r N e u t r a l i z i n g O d o r B l o c k

1 Product Identification and Use

Product Name: Odor Neutralizing Gel Blocks
Other Names: None
Product Code: Not set
Product Type: Organic solid
Chemical Family: Mixture of ingredients as described below.
Uses: Odour Neutralizer
Dangerous Goods Class: None

Manufacturer / Supplier
Odorchem Manufacturing Corp.
#404, 20285 Stewart Cres.
Maple Ridge, B.C. V2X 8G1

2 Ingredients

Chemical Entity	CAS No.	Proportion %	Exposure	Limits*
			TWA mg/m ₃	STEL mg/m ₃
Propylene glycol	57-55-6	10-30	not set	not set
Denatured alcohol	64-17-5	10-30	not set	not set
Terpene mixture	Secret	10-30	not set	not set

All other components are not considered hazardous by the "Hazardous Products Act" and do not appear on the Ingredient Disclosure List of hazardous substances. This is a commercial product, and the exact ratio of components may vary. Trace quantities of impurities are also likely.

3 Physical Data

Physical State: solid
Odour and Appearance: Clear colorless blocks.
Vapour Pressure (kPa): not available
Expected to decompose before boiling.
Vapour Density (air=1): not available
Evaporation Rate: not available
Boiling Point (°C): not available
Freezing Point (°C): not available

pH: not available
Specific Gravity: 1.12
Coeff. Water Oil Dist: not available
Volatile Materials: >50%
Solubility in Water: Slowly soluble
Corrosiveness: Not corrosive

4 Fire and Explosion Data

Flammability:	not flammable
Means of Extinction:	carbon dioxide, dry chemical, foam, water fog.
Flashpoint:	not flammable
Upper Flammable Limit:	not flammable
Lower Flammable Limit:	not flammable
Autoignition Temperature:	not flammable
Hazardous Combustion products:	not flammable
Explosion Data:	There is no explosion hazard from this material under normal circumstances.

5 Reactivity Data

Chemical Stability:	Stable
Material to Avoid:	No particular incompatibilities.
Polymerization:	Will not polymerize
Decomposition Products:	Carbon dioxide, carbon monoxide and smoke (if combustion is incomplete), water. Likely to decompose only after heating to dryness, followed by further strong heating.

6 Toxicological Properties

Effects of Acute Exposure

Swallowed: Data suggests that the product should be considered to be non-toxic by ingestion.

Eye: Data suggests that this product should be classified as non-irritating to the eyes.

Skin: Data suggests that this product should be classified as not irritating or harmful to the skin.

Inhalation: Data suggests that the product should be considered to be non-irritant and non-toxic by inhalation.

Primary route of exposure is inhalation and skin and eye contact.

Effects of Chronic Exposure

No specific data is available for the product for chronic exposure symptoms. The materials in this product are not considered to be carcinogenic by the Worksafe Australia lists (May 1995).

7 Preventive Measures

Personal Protection

Refer to "Directions for Use" section on the container.

Respiratory Protection: A facemask or respirator is not necessary when this material is being used.

Protective Gloves: Rubber or PVC gloves are not generally necessary but are desirable, especially if product is being used frequently or for lengthy periods.

Eye Protection: Eye protective measures are not normally necessary, but are suggested when using this product.

Clothing: Clean overalls should be worn, preferably with an apron. Always wash hands before smoking, eating, drinking or using the toilet. Wash contaminated clothing and other protective equipment before storing or re-use.

Spills and Disposals

This material may be suitable for approved landfill. Dispose of only in compliance with local, provincial and federal regulations. Slippery on floors. Launder all saturated clothing before re-use.

Storage and Transport

No special transportation requirements. This product does not have a UN Classification.

Containers should be kept closed in order to minimize contamination. Keep from extreme and open flames.

8 First Aid

Swallowed: If swallowed, **DO NOT INDUCE VOMITING**. Rinse mouth with water. Give glass of water to drink. Further measures should not be necessary.

Eye: If this product come into contact with eyes, hold eyes open and wash continuously for 15 minutes with running water. Ensure irrigation under eyelids by occasionally lifting eyelids. Do not attempt to remove contact lenses unless trained. Transport to hospital or doctor immediately if skin irritation develops. Eye wash stations or baths should be available whenever chemical product is being used.

Skin: If this product comes into contact with skin, rinse skin with clean water. Remove saturated clothing and footwear. Ensure saturated clothing is washed before using again. Consult doctor immediately if skin irritation develops.

Inhalation: If excessive fumes are inhaled, remove to fresh air. Lay patient down and keep warm and rested. If breathing is shallow, or has stopped, ensure a clear airway; apply resuscitation or oxygen if available. Transport to hospital or doctor immediately.

Advice to doctor: Treat symptomatically. Note the nature of this product.
