

## Technical Data: Soil Aerator

Growstone Soil Aerator is made from 100% recycled glass and is 100% American made. It's highly porous, lightweight and clean. It imparts silica to your soil and provides more aeration than anything else on the market. Blending Growstone Soil Aerator with any media allows for more frequent feedings, providing fresh nutrients to roots with no risk of root rot. At the same time, the drier nature of the planting mix gives growers better control over the blooming stage.

**PRODUCTION FACILITY:** Albuquerque, New Mexico USA

### PACKAGE SPECIFICATIONS:

#### RETAIL PACKAGING

Product Name	UPC Code	Growstone SKU #	Description	Particle size	Bag Volume	gross weight	N Bags/pallet	Weight / pallet (lbs.)	Bag Size	MSRP
