*(butylcarbityl) (6-propylpiperonyl)
ether and related compounds

EPA Registration No. 1021-1801-71996

Net contents 24 fl oz (709 ml)

EPA Establishment No. 71996-CA-001

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

— SHAKE WELL BEFORE USING —

Do not allow adults, children, or pets to enter the treated area until sprays have dried. Do not apply this product in a way that will contact adults, children, or pets, either directly or through drift. Do not water the treated area to the point of run-off. Do not wet articles to point of run-off or drip. Do not use treated article until spray has dried. Remove pets, birds, and cover fish aquariums before spraying. Do not make applications during rain. Do not wet plants to the point of run-off or drip. Remove or cover exposed food and drinking water before application. Remove or cover dishes, utensils, food processing equipment, and food preparation surfaces, or wash them before use.

All outdoor applications must be limited to spot or crack-and-crevice treatments only, except for the following permitted use: application to vegetation.

Application is prohibited directly into sewers or drains, or to any area like a gutter where drainage to sewers, storm drains, water bodies, or aquatic habitat can occur. Do not allow the product to enter any drain during or after application.

FoxFarm Soil & Fertilizer Company DON'T BUG ME® Home & Garden Insect Spray may be used indoors or outdoors as a contact spray for flying and crawling pests commonly found in and around the home. This product contains Pyrethrum, derived from a Chrysanthemum flower, to give fast and effective kill on contact. Pyrethrum also will "flush" hiding insects, which then allows you to spray them for immediate contact kill. SHAKE WELL BEFORE USING. Adjust spray nozzle to give a coarse, wet spray.

INDOORS:

House Flies, Gnats, Mosquitoes, Flying Moths: As a room spray to control these pests, close doors and windows and pump spray, aiming the nozzle into the upper corners of the room and filling the room with a fine mist. Do not remain in treated area. Exit area immediately and remain outside the treated area until aerosols, vapors, and/or mists have dispersed. Do not allow adults, children, or pets to enter until vapors, mists, and aerosols have dispersed, and the treated area has been thoroughly ventilated. Keep room closed for at least 15 minutes and then air room out before occupancy. Before spraying in kitchen or dining areas, cover or remove food and utensils.

Ants, Asian Lady Beetles, Boxelder Bugs, Brown Marmorated Stink Bugs (BMSB), Cockroaches (Water Bugs/Palmetto Bugs), Sowbugs, Pillbugs, Crickets, Silverfish, Firebrats, Fleas, Ticks, Stink Bugs, and Spiders, including Black Widow and Scorpions: Spray into cracks and crevices, along baseboards, behind and beneath cabinets, cupboards, pantry, other food storage areas, under stoves, sinks, refrigerators, and in and around waste containers and other areas where these pests are seen or suspected of hiding. Spray as many pests as possible, especially as they are being flushed from hiding. Spray ant trails and places where they are entering the house.

Precautionary Statements
Hazards To Humans and Domestic Animals

CAUTION

Harmful if swallowed. Harmful if absorbed through skin. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse.

Environmental Hazards

This pesticide is toxic to aquatic organisms, including fish and invertebrates. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are actively visiting the treatment area.

Physical or Chemical Hazards

Do not use this product in or on electrical equipment because of shock hazard.

CAUTION

FIRST AID

IF SWALLOWED:	<ul style="list-style-type: none"> • Immediately call a poison control center or doctor. • Do not induce vomiting unless told to do so by a poison control center or doctor. • Have person sip a glass of water if able to swallow. • Do not give anything by mouth to an unconscious person.
IF ON SKIN OR CLOTHING:	<ul style="list-style-type: none"> • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For information regarding medical emergencies or pesticide incidents, call 1-888-740-8712.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage and disposal.	
PESTICIDE STORAGE:	Store in a cool, dry area. Always store pesticides in the original container. Store in an upright position only. Store with spray nozzle securely closed. Do not store with spray nozzle below level of product in container. Store away from food and pet food.
PESTICIDE DISPOSAL AND CONTAINER HANDLING:	<ul style="list-style-type: none"> • Nonrefillable container. Do not reuse or refill this container. • If Empty: Place in trash or offer for recycling if available. • If Partly Filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

Please remember to recycle. It means the world to us!

Fleas and Ticks: Where fleas and ticks are associated with household pets, remove and launder or replace the pet's bedding, and spray the surrounding area. Pay particular attention to cracks and crevices, along baseboards, carpeted areas, area rugs, and fabric-covered furniture where these pests may be found. Replace pet bedding when spray is dry. Concurrent treatment of the pets and their yard areas is recommended with a product labeled for those sites and pests.

Carpet Beetles: Apply as a spot treatment along baseboards and edges of carpet and rugs. Also spray under carpets and area rugs after vacuuming area to remove debris. Spray carpet in corners of rooms, under furniture, in closets, on shelving and other areas where these pests are seen or suspected.

Sawtoothed Grain Beetles, Indian Meal Moths, Rice Weevils, Confused Flour Beetles: To kill the exposed forms of these pests, find and destroy infested packages of food products in cabinets or pantry. Remove shelf paper. Clean inside cabinets thoroughly. Remove packaged goods and spray shelves and cracks and crevices. Replace shelf paper with new paper and return packaged goods when spray is dry.

OUTDOORS:
