**BEFORE YOU USE:** This product contains plant oils which are inherently fragrant. For people who are sensitive to fragrances, test a small application before using over a larger area. While staining is unlikely, it is recommended to test for possible staining on an inconspicuous area on surfaces to be sprayed.

**FOR TREATMENT / PROTECTION AROUND BEDS:** Spray around base/legs of bed and in cracks/crevices in bed frame. Spray all tracks/crevices around the headboard and footboard of the bed. Spray around the nightstand, any wall hangings and along the floorboard adjacent to the bed. Also, spray around the location where your luggage will be placed. Repeat as necessary.

**FOR TREATMENT / PROTECTION ON MATTRESSES:** Remove linens. Spot treat areas on mattress that may harbor bed bugs including in and around tufts, folds and seams. Repeat as necessary.

**PRECAUTIONARY STATEMENTS:** Caution - We recommend good safety practices when using any pesticide, such as avoiding contact with eyes and skin and keeping out of the reach of children. If product gets in eyes, flush with water. If on skin, wash with soap and water. If irritation persists, contact a physician.
