

BIG BUD

0-2-4

Jack in the Beanstalk Lives Again

Remember Jack, who went to the market with his family's last cow, and made his mother furious by trading the animal for five "magical" bean seeds? But the beans sprouted to become gigantic plants that soared into the clouds where a wealthy giant lived. Jack climbed the stalks into the giant's home, where he got himself a bag of gold coins, a hen that laid golden eggs, and a magical harp. It's refreshing to realize that you too can be Jack in the Beanstalk today.

Guaranteed Analysis:

Available Phosphate (P ₂ O ₅).....	2.0%
Soluble Potash (K ₂ O).....	4.0%
Magnesium (Mg).....	0.7%
0.7%.....	Water Soluble Magnesium (Mg)

Derived from: Magnesium Phosphate, Magnesium Sulfate, Potassium Phosphate.

Also contains non-plant food ingredients:

L-Alanine.....	0.3%	L-Leucine.....	0.9%

Co-Founders' NO-RISK, 100% Money Back GUARANTEE

The absolute known fact is that Big Bud increases harvest yield by at least 17.5%, and sometimes much more than that, depending on what strain you're growing. Not only that, but you're guaranteed to easily observe the branch-bending results when Big Bud's L-lysine amino acids insert themselves into your plants' floral metabolism to feed and fuel the flower factory that simmers inside our garden. While other bloom boosters reverse the proper ratio of phosphorus and potassium so your plants get way too much phosphorus and not enough potassium, Big Bud does it right so your plants intake just what they need to make your buds into gleaming, thick flowers. Years of scientific research on the plants you grow gives us total confidence in offering our Big Bud moneyback guarantee, because we are sure you'll get Big Bud today and see nearmax flowers.
