

## **AGE OLD GROW FORMULA (8-4-1 with 1% Calcium)**

Age Old Grow Formula is high in nitrogen to provide the soil with sufficient organic slow release nitrogen for bacterial conversion of soil microbes into usable nutrient forms. It is an excellent nutrient addition for potting mixes and can be used as a top dressing for gardens. Age Old Grow Formula is designed and blended to build and sustain the beneficial soil micro-organism population that is necessary for healthy and robust plant growth.

### **GENERAL DIRECTIONS**

**POTTING MIXES:** Add to potting mixes at a rate of 1/2 pound per cubic foot or 1 Tablespoon per gallon pot.

**GARDEN FIELDS:** Apply as a top dressing at a rate of 5 pounds per 100 square feet of garden or use 2 tablespoons worked into the soil around the roots of each plant.

**ADDITIONAL TREATMENTS:** Foliar sprays of Age Old Liquid Bloom, Grow, and Kelp should be followed as outlined under the In Full-Bloom instructions.
