NET CONTENTS: 32 FL. OZ. (946 ml)

0507
Grub Killer
Ready-To-Spray
Mata Larvas
Listo Para Rociar

Always Shake Well Before Using

GENERAL INFORMATION:
Grub Killer's effectiveness is based on several modes of action. It disrupts insects' delicate hormonal balance so they die before they molt to the next life stage. Grub Killer suppresses some insects' desire to feed and also repels many insects in areas that have been sprayed. These different modes of action result in broad spectrum control of the majority of insects that harm your yard and garden. Grub Killer kills or repels a broad spectrum of insect pests. Grub Killer spares many beneficial insects such as honey bees and lady bugs that prey on undesirable insects. Without beneficial insect to control pest populations, plants are even more vulnerable to new infestations.
