GENERAL USE INFORMATION

Serenade Garden Disease Control Concentrate is a broad spectrum, preventative biofungicide recommended for the control or suppression of many important plant diseases. Serenade Garden Disease Control Concentrate may be used on vegetables, fruits, nuts, flowers, foliage, trees, and shrubs located in residential landscapes.

MIXING AND APPLICATION INSTRUCTIONS

Serenade Garden Disease Control Concentrate can be applied in commonly used pressurized hand-held and hose-end sprayers. Spray to ensure thorough coverage of the plant.

For best results, treat prior to foliar disease development or at the first sign of foliar disease infection. Repeat at 7-day intervals or as needed. Under conditions of high disease pressure, shorten the spray interval or, for ornamental plants, use the higher rate.

Serenade Garden Disease Control Concentrate can be applied up to and including the day of harvest.

Pressurized Hand-Held Sprayer Application Instructions:

Mixing: For Apples/Pears, Broccoli, Carrot, Cherries, Cucurbits, Grapes, Leafy Vegetables, Onions/Garlic, Pepper, Tomato, and Walnuts, mix 4 fluid oz (½ cup) of Serenade Garden Disease Control Concentrate per gallon of water.

For Ornamental Plants – Annual and Perennial Flowering Plants, Tropical Foliage, Trees and Shrubs, mix 1 - 2 fluid oz (2-4 tablespoons) of Serenade Garden Disease Control Concentrate per gallon of water. Use the higher rate under conditions of high disease pressure.

Mix thoroughly and keep spray solution agitated during application. Do not allow spray mixture to stand overnight or for prolonged periods.

Application: Use 15 fluid ounces of spray solution per 100 square feet.

Hose-End Sprayer Application Instructions:

For Apples/Pears, Broccoli, Carrot, Cherries, Cucurbits, Grapes, Leafy Vegetables, Onions/Garlic, Pepper, Tomato, and Walnuts, apply 4 fluid oz (½ cup) of Serenade Garden Disease Control Concentrate per 1000 square feet.

For Ornamental Plants – Annual and Perennial Flowering Plants, Tropical Foliage, Trees and Shrubs, apply 2 fluid oz (¼ cup) of Serenade Garden Disease Control Concentrate per 1000 square feet.
